PLASTIK

## SEPAR PLASTİK

### COMPANY

SEPAR PLASTİK is a leading manufacturer of PS Sheet (Polystyrene) PP Sheets (Polypropylene) and ABS Sheets in Turkey. Established in 2009, our company has introduced the most advanced extrusion production lines of world class quality and with around 80 well educated and experienced employees, we are looking at the future with all the enthusiasm and self confidence and drive to serve our current and future customers. Currently we possess maximum number of sheet production lines in Turkey. We have two production plants which are in Istanbul and Bursa city. Our total production capacity with these two plants is 1300 tons plastic sheet per month and we are all set to increase it up to 1500 tons/month by the end of 2015, with a new PP Extrusion line.

The range of our products include plastic sheets for thermoforming like Polystyrene Sheet, Polypropylene Sheets & Rolls, ABS sheets. On the other hand, we also have our own thermoforming lines within our facility where we produce final thermoformed products like PP, PS and PET containers, disposable ps and pp plates, display stands for exhibitions, separator trays for industrial packaging and so on. The capacity of our thermoforming lines in total is around 300 Tons/month.

Our Thermoforming sheets are used mainly by thermoforming companies who are producing car roof racks, ABS luggages, refrigerator inner parts, car interiors, display stands, packaging separators, food containers and so on.

Separ Plastik food containers are used mainly by catering companies, dairy companies, meat processing factories, restaurants and so on.

With our customer oriented production concept based on reliability and long term cooperation focus, Separ Plastik is at your service for your plastic sheet, plastic rolls and plastic food container requirements.

#### **FIELDS OF ACTIVITY**

We are a thermoform plastics factory producing Polystyrene sheets (PS Sheet) , Polystyrene rolls (PS Rolls), PP sheets (Polypropilene sheets), PP rolls (Polypropilene rolls) and ABS sheets and thermoform products including packaging separators, transport trays, PP and PS food containers, PP and PS plates.

Separ Plastik ABS sheets are used mostly by Automotive, advertising, furniture and agricultural companies.

Our Polystyrene sheets/rolls and Polypropilene sheets/rolls are used mainly in packaging business by thermoform and food companies.

Separ Plastik food containers and disposable plates are used mainly by catering companies and restaurants.

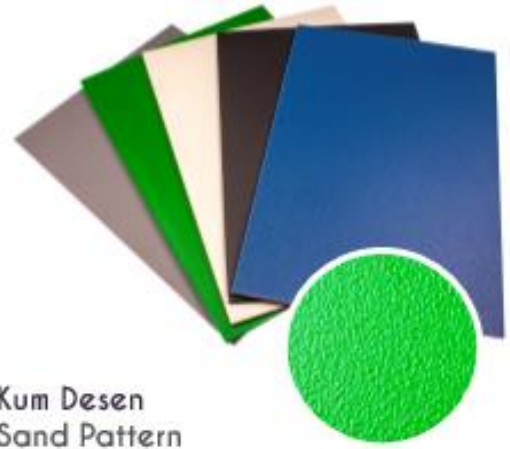

These materials in our production; used in many areas such as industries of automotive, food, advertising, furniture, agriculture.
